Annual Meeting of the Hungarian Association of Rheumatologists**

Invitation to the Congress

Dear Colleagues and Friends,

On behalf of the organizers I'd like to invite all of you to the 8th Central European Congress of Rheumatology (CECR) to be held in Sopron, Hungary between 23-25 September, 2010. Not only rheumatologists from the six organizing countries (Austria, Czech Republic, Hungary, Poland, Slovakia, Slovenia) but also specialists and general practitioners interested in musculoskeletal conditions from different parts of Europe and from all over the world are expected to join us.

The story of the CECR started in Piestany where the first congress took place in 1996. It was followed by Warsaw (1998), Bratislava (2000), Baden bei Wien (2002), Budapest (2004), Bled (2006), and Prague (2008). The passed 14 years, the number of attendees and the scientific level of the events justified the importance of this biennial congress.

This year the charming, historical, Western-Hungarian town, Sopron will act as host to the congress. Distinguished specialists have already confirmed their state of the art presentations in the scientific programme. All the leading European pharmaceutical companies will be there with their exhibition booth and several of them (Abbott, Amgen, Lilly, MSD, Pfizer and Roche) will have the possibility to organize satellite symposium. However, to make the programme complete we need your attendance and active participation. Therefore, we encourage you to come to Sopron, to register and to submit an abstract on your valuable rheumatology activities. The social programmes, the special atmosphere of the town and the delicious Hungarian wines and foods will also help us to make this meeting a memorable event.

The Second Announcement for the 8th CECR contains all the necessary and substantial information regarding the upcoming congress. It includes important deadlines, information on registration and hotel reservation as well as the main topics of the scientific programme and the details about the submission of abstracts. The brochure's on-line version is available on the official website of the congress www.mre.hu/cecr2010. Please do not hesitate to contact us if you have any queries regarding the event.

We hope to welcome you to Sopron in September 2010. We are looking forward to sharing with you an exciting and nice meeting in Hungary.

Yours sincerely,
March, 2010.
